

Order of Americans of Armorial Ancestry Lineage of Members Volume Two

Compiled by Karen Elizabeth McClendon

This second volume of OAAA lineages, published in April of 2013, has over 550 pages and a wealth of heraldic information. The foreword, "Heraldry in America: An Introduction," was written by Duane L. C. M. Galles and contains almost forty pages of fully-sourced information.

The book includes the lineages of 282 members, covering applications 719 through 1000 as well as numerous supplemental lines. An every-name index provides assistance in finding ancestors.

The section on arms contains 244 illustrations by heraldic artist Thomas P. Curtis, approximately $\frac{2}{3}$ of which are new in this volume. This section contains a glossary and articles by two recognized authorities in the field: Peter O'Donoghue, York Herald of Arms, "Introduction to Heraldry" and John Shannon, Executive Director at St. George's Society of New York, "Rendering the Blazon: Artistic Choice in Depicting Heraldry."

The cost of the book is \$50.00, including postage and handling.

Credit card orders are encouraged to speed the processing of your order; however, a check payable to "OAAA" will certainly be acceptable.
